PLAY IT SMART: WORK EASILY

Can-Am Off-Road lineup is full of options for demanding work days and thrilling afterwork fun. The fully redesigned Traxter, the first electric ATV of the industry, and the enhanced 6x6 ATV platform. For those who crave more, we've got rides built to last.

WHY CAN-AM

Discover the Can-Am Off-Road, one of the world leaders in all-terrain vehicles and side-by-side vehicles.

PROVEN ROTAX® ENGINE POWER

UNLEASH MORE PERFORMANCE

Feel the unmatched power and proven reliability of a Rotax engine. It is the heart of our machines, built to deliver the performance you need to conquer any terrain and power through the toughest jobs without fail.

INDUSTRY-LEADING FEATURES

ENGINEERED IN CANADA

Designed with cutting-edge innovation to stay ahead. Enjoy exceptional towing power and the largest cargo capacity, giving you the ability to haul more, accomplish more, and drive with confidence and control.

UNMATCHED DURABILITY & SUPPORT

SMARTEST INVESTMENT, GUARANTEED

Can-Am vehicles are built to last, offering unmatched durability and the best resale value. With a wide dealer network, expert teams, and readily available parts, Can-Am ensures you're supported every step of the way—no matter the challenge.

ATV: UTILITY LINE-UP

THE TRUSTED MACHINE FOR WORKING PROFESSIONALS

When the job demands more, Can-Am Outlander delivers. These machines are built to handle every task, every terrain, every day – versatile, powerful and ready to work as hard as you do.

- 4.5 in digital display with keypad & 10.25 in. touchscreen display

START YOUR ADVENTURES WITH MAVERICK

Unleash serious off-road energy. With raw power, sharp control, and a fiery attitude, our sport SxS are made to ignite your wildest rides. Explore, ride, and roar off-road in our purpose-built-for-anything high-performance vehicle.

LinQ SYSTEM™

CAN-AM ACCESSORIES

The LinQ system in our accessories enhances Can-Am versatility. Designed for fast and tool-less installation. Our LinQ system offers a wide range of add-ons to transform your Can-Am to a multi-purpose machine.

LINQ

One system, multiple accessories
Can-Am puts the power of customisation back in riders' hands. Secure cargo and change accessories with just a quarter turn. Plus, LinQ delivers endless possibilities for personalised adventures since off-road riders have different needs.

QUICK

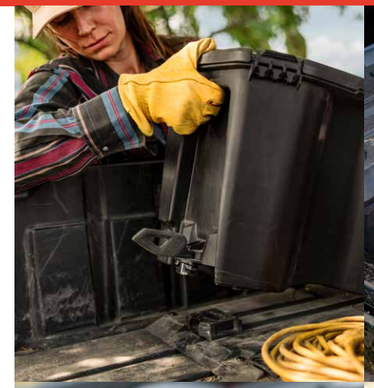
Equip your Can-Am beast with LinQ accessories with just one quarter turn. Mount them on in no time to focus on what matters most: making memories while chasing thril.

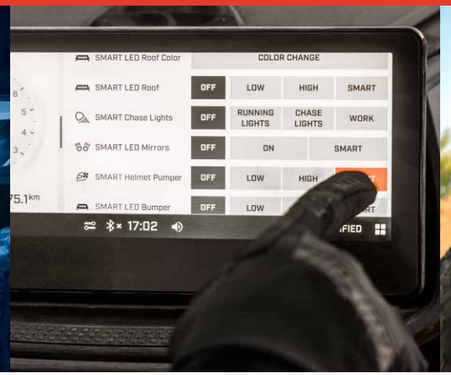
SECURE

LinQ accessories lock up and never let go. Sturdy and dependable, these cargo essentials answer the call on any terrain to never compromise on your final destination.

EASY

With our LinQ System, all you need to customise your Can-Am vehicle are your hands! Install LinQ must-haves in no time and with no extra tools needed.





LIFT YOUR VEHICLE'S IQ

Optimise your adventures or working conditions with a smart accessory system that responds automatically and adjusts functions in real time. Can-Am SMART accessories change the very idea of what an accessory can do.

ACM

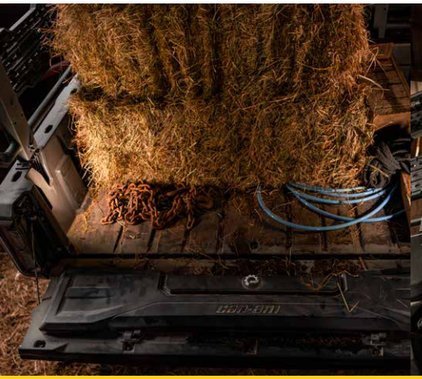
This is the brain of the SMART Ecosystem. It reads multiple sensors on the vehicle and translates the reading into actions for the accessories.

SMART CONTROL CENTER

Allows you to quickly access SMART Accessories (can be used with or without the 10.25" touchscreen display).

SMART ACCESSORIES

Accessories designed to execute multiple functions depending on the input from the ACM.



KEEP MOVING WITH CAN-AM RECOVERY GEAR

CAN-AM WINCHING KIT

Ultra-strong, tree-friendly kit ensures quick, durable connections to get you unstuck, all in a handy carry bag.

CAN-AM KINETIC RECOVERY KIT

Kit with kinetic rope and soft shackles ensures smooth vehicle-to-vehicle recoveries. Includes a roll-top bag.

CAN-AM RETRACTABLE ROPE SYSTEM

The self-retracting rope features a built-in tow hook and soft shackle for quick connections. Fits 2" hitches for convenient towing.

FRONT TOW HOOK

Heavy-duty steel hook bolts directly below the front bumper. Provides a solid anchor for recovery or transport with a 3,500 lb capacity.

2" SOFT SHACKLE HITCH RECEIVER

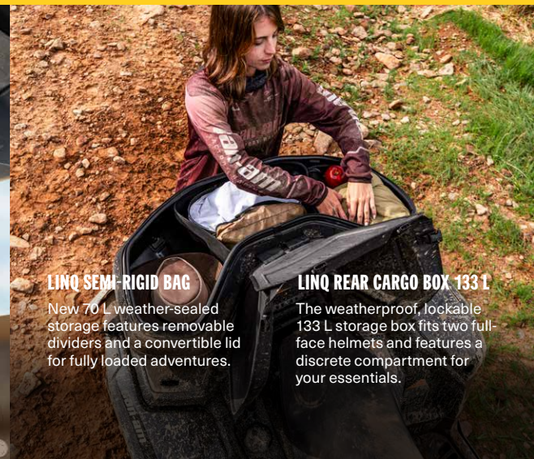
Easy-to-install recovery mount fits any 2" receiver with a hitch pin, delivering a safe connection point for soft shackles.

AUDIO LEVEL 2 AND AUDIO LEVEL 3 SYSTEMS

Elevate every ride with high-performance sound. Can-Am Rockford Fosgate audio systems deliver premium sound with a fully integrated design for a precise fit.

Level 2 features two 6.5" speakers and a colour touchscreen source unit in an expandable setup. Level 3 steps up performance with four 6.5" speakers and a 500 W amplifier for an immersive front-and-rear audio experience.

Both systems allow seamless upgrades.



LINQ SEMI-RIGID BAG

New 70 L weather-sealed storage features removable dividers and a convertible lid for fully loaded adventures.

LINQ REAR CARGO BOX 133 L

The weatherproof, lockable 133 L storage box fits two full-face helmets and features a discrete compartment for your essentials.

THE ACCESSORIES

Fit on Outlander PRO & Outlander 500/700

LINQ STACKABLE FUEL CADDY (14 L)

Keep riding longer and fuel more fun adventures with the LinQ Stackable Fuel Caddy (14 L). (In front installation only)

LINQ CHAINSAW HOLDER

Save space on your rack and install a chainsaw securely to pack everything you need for your jobs.

LARGE CARGO BOX

Delivers impressive storage capacity with a rear bed designed to transport large items on your ATV.

Check out our all accessories and build your dream Can-Am at CANAMOFFROAD.COM

THE ACCESSORIES

Fit on Traxter G2

SMART 40" (102 CM) LED LIGHT BAR

Cut through fog and snow with sharp clarity. Speed-adaptive SMART technology, white and yellow LEDs, and side lenses deliver an ultra-wide beam.

DELUXE CAB ENCLOSURE

Stay fully protected from the elements with the top-of-the-line Deluxe Cab, featuring key-locking door latches.

HEADACHE RACK

Protect cab components from cargo load with this sturdy rack, featuring forged steel corners to tie down your material.

REAR BUMPER

Protect your rear box and lower box corners with a heavy-duty steel bumper allowing normal tailgate function.

XPS LUBRICANTS

THE NEXT GENERATION OF POWERSPORTS PROTECTION

XPS SYNTHETIC OILS & LUBRICANTS

Developed as an integral part of the engine and vehicle, XPS lubricants don't stop at meeting certification requirements. The pursuit of more power and torque is in our DNA. This drive for performance has led us to create specifically engineered lubricants to help keep your vehicle performing the way it was designed to.

Every XPS fluid is developed with BRP powertrain engineers and proven through thousands of hours of rigorous dyno and field testing. Built to handle extreme environments, reduce friction, and minimise engine wear, XPS is the ultimate performance insurance for your Can-Am.

FULL SYNTHETIC

SAE 5W-40

The New Standard for All-Weather 4-Stroke Performance Developed over 5 years, the next-generation XPS 5W-40 replaces the previous synthetic blend to deliver a giant leap forward in powersports protection. Compatible with all superchargers and turbochargers, it is engineered to fight deposits and minimise friction.

Key Benefits

- **Proven Cleanliness:** 37% improvement in piston cleanliness over standard powersport engine oil.
- **Versatile & Safe:** 100% backward compatible—won't cause damage if mixed with semi-synthetics during oil changes.
- **Specs:** Meets API SN and JASO MA2 specifications while exceeding industry standards for wear and corrosion protection.
- **Operating Range:** -35°C to 40°C.

COOL-X LT

Engineered to Protect Your Engine and Maximise Every Ride.

COOL-X LT keeps your machine running at peak performance. Designed specifically for the extreme thermal demands of high-performance powersports engines, this ready-to-use 50/50 premix delivers maximum heat transfer, zero-fail freeze protection, and lifetime durability.

THE ULTIMATE POWERSPORTS PERFORMANCE COOLANT/ ANTIFREEZE

The COOL-X LT Advantage:

RIDE HARDER WITHOUT OVERHEATING

- Advanced formula increases thermal conductivity by 4.34% at 100°C (ASTM D7896).
- **The Benefit:** Pulls intense heat away from critical cylinder heads fast—preventing performance loss, power drops, and engine warping.

SHIELD YOUR ENGINE AGAINST SEVERE CORROSION

- Delivers 95.6% less aluminium corrosion than standard aftermarket coolants (in ASTM D1384 test by dropping metal loss from 23 mg down to just 1 mg).
- **The Benefit:** Completely safe for aluminium, steel, copper, and iron. It locks out corrosion, rust and pitting.

FILL IT AND FORGET IT (LIFETIME PROTECTION)

- Engineered to last the life of your engine under normal operating conditions.
- **The Benefit:** Spend less time in the garage doing flushes and more time out on the trail.
- **Maintenance Pro-Tip:** Top up only with COOL-X LT to maintain lifetime efficiency. If mixed with alternative brands, the coolant must be replaced every 5 years.

BUILD YOUR CAN-AM

It's simple! Choose your ride, accessorise and customise it with personalised options to match your needs and style.
